

Heating Solutions!

100% Safe, Clean & Dry Heat

CRE™ has the perfect heater for any new construction or remodeling. Our indirect fired heaters provide clean, dry heat for any situation!

All-Purpose Heat

Use for drying structural water damage, heating new construction or to ventilate fresh outside air.

Dual Fuel

Switch from propane to natural gas in minutes.

Cost Efficient

Engineered for maximum efficiency, our heaters are economical to operate. Thermostat control allows you to decide how much heat is needed.

High CFM

The powerful whisper quiet blower pushes out 1,400 CFM to ensure heat will be ducted where it is needed most.

Easy to Operate

CSA Certified to ANSI standards, these heaters follow the "Plug and Play" approach.

Use Indoors

The compact design and slim profile allow this unit to easily fit through standard doorways to recirculate warm air and save money. Only weighs 186 lbs.

Makes Air Thirsty

Dry heat lowers the relative humidity of the air and increases the evaporation rate.

Specifications

Model	VG175DX
Input	175,000 BTU/Hr
Fuel	Vapor Propane/Natural Gas
Gas Consumption	1.9 GPH Propane/175 CFH NG
Gas Connection	3/4" FNPT
Electrical	120 Volts 15 amp circuit
Fan	1,400 CFM 1/2" SP
Thermostat	Digital Control
Temp Rise	200°F @ 0°F Ambient
Rated Efficiency	80%
Shipping Dim.	43"L x 15"W x 38"H
Duct Size	8" (up to 25' straight)
Approx. Weight	186 lbs.

Did You Know . . .

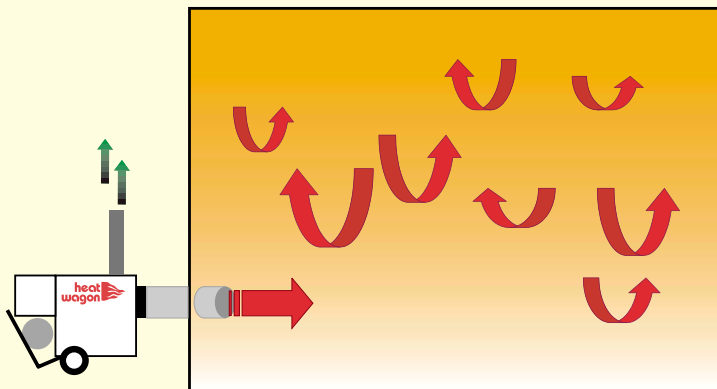

Direct-fired heaters add 7.5 lbs. of water vapor per every 100,000 BTU of fuel consumed.

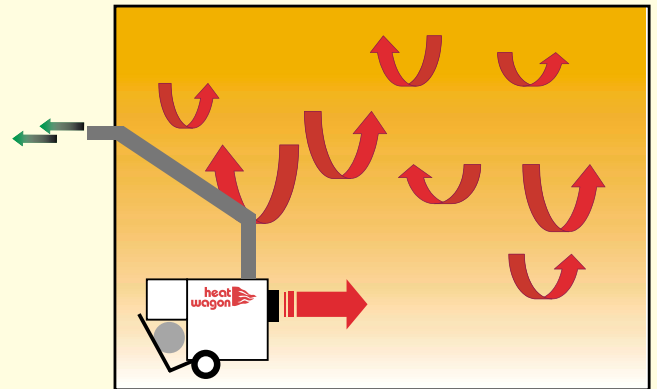

Turnkey Package Includes

- Duct
- Remote Thermostat
- Flue Stack
- Pipe Train with Regulators and 25' of Hose

100% Clean Dry Heat

Heat is ducted in from outside

By-products of combustions are vented out
